ANY OTHER RELEVANT INFORMATION REGARDING EXPERIENCE AND SKILL IN TEACHING AND LEARNING IN AN UNIVERSITY CONTEXT (E.g. competence in learning facilitation, subject mastery and curriculum development, development of learning materials, competence in assessment, guidance at postgraduate level, mentoring and coaching of other academic staff members, etc.)					
<p>Upon my employment at the University of Limpopo, I have found Bachelor of Social Work programme de-accredited and staff members had to develop a new BSW programme which started running in the year 2019. That has created a platform for me to gain an invaluable experience on curriculum development, and the development of learner guides as well as modular outlines.</p> <p>I am the member and currently the chairperson of the Departmental of Social Work Research Ethics Committee (DSWREC) and also participated as a member for the School of Social Sciences Research Ethics Committee (SSSREC) and Faculty of Health Sciences Research Ethics committee (FHSREC) that constitutes the Turfloop Research Ethics Committee (TREC). With effect from the year 2024, I was nominated to be a member of the Faculty Executive Committee (FEC) who assist in addressing issues related to teaching and learning, research, and community engagement within the Faculty of Humanities. I also participated as a member of both Undergraduate and Postgraduate Selection Committees at the University of Limpopo. That has helped me gain more experience in the review of post graduate research proposals and academic manuscripts. As highlighted in this <i>curriculum vitae</i>, I review manuscripts for several DHET accredited journals.</p> <p>I have acquired an intensive training during my master's studies on forensic investigations in child sexual abuse cases at the North West University which is the only University in South Africa providing forensic social work training. With the specialised knowledge I have acquired, I believe the University of Limpopo will benefit a lot from it. I have already written a book chapter and several papers on this field. You can refer to the first pages of the book chapter and papers on this subject area on the evidence attached.</p>
